

HMECU Supports Fundraising Efforts for Ukraine

At the end of February Russia declared war on Ukraine. The Russian army has attacked military facilities, infrastructure, residential areas, hospitals and nurseries. The WHO estimates that the number of affected people sits at roughly 20 million.

HMECU and credit unions across the country are stepping up to help raise funds to support the Ukrainian people in need. HMECU has donated \$5,000 to the Canada-Ukraine Foundation. The Foundation raises humanitarian funds to deliver assistance projects generated by Canadians to Ukraine. Donations ensure humanitarian programs receive the necessary funding needed to provide life-changing aid.

Our thoughts and prayers are with the people of Ukraine, and their friends and relatives affected by this tragedy. We encourage anyone able to contribute to donate in any way you can.

The following Canadian Credit Union website offers several options for donations - <https://ccua.com/news/ukraine-humanitarian-appeal/>.
